Submits a statement furnishing the information called for. From the statement it will be seen that, if the Municipal Council's prayer is sanctioned, the amount of land revenue which they will get comes to Rs 2876-8-0. In this connection attention is respectfully invited to R. P. subject No. 165 of 1909 and the reply of Govt. that "each case will be decided on its merits" in reply to the Serugapattanam Municipal Board's prayer for an assignment of the land revenue to enable them to find money for the maintenance of the proposed water works, Govt. state that it could not be done.

Submitted for orders.

I doubt the expediency of alienating the land revenue to the Municipality. The question may however be considered alongwith the proposal made by the Municipal Council that the whole of the maintenance charges of the Vaniyilas water works may be borne by Government, the Municipality keeping the amount collected as water tax and for excess consumption of water. This would involve a large annual grant from Provincial funds.

Charges and the Govt to meet the entire maintenance and repair Charges, the amount not Covered by the aforesaid realizations being treated as a grant-in-aid to the Municipality. The Annual maintenance Charges of the water works are estimated at Rs 38,437 as hereunder:-

(1) Staff &c 4672
(2) Royalty for electric power } 4615
(3) Distribution 1150
(4) Sinking fund (for renewals &c) } 5000

Total Rs 38,437

And Calculating on the average realization for the last 5 years under "Tax on buildings & lands" in the Income Municipality, at 3 pies each water rate will bring in about Rs 13,073. Collection on account of excess Consumption of water will fluctuate & may be left out of account as unascertainable. Thus, the annual grant-in-aid to the Municipality on account of water supply may be roughly estimated at Rs 25,364

To

SIR,

With reference to your letter No.6651/Rl.552-07-4 dated the 2nd February 1910, calling for an expression of my opinion in the matter of the Mysore City Municipal Council's prayer for the revenue derived from the agricultural lands situated within the Municipal limits being made over to them, I have the honour to state in reply as follows:-

2. The President, Mysore City Municipal Council, points out in his letter No.169 dated the 6th May 1909, that the Municipal Board will not be able to maintain at least the prescribed working balance for some years to come on account of heavy expenditure incurred on the City water Works", and urges that the concession asked for may be granted. I am of opinion that, in the interest of this important Municipality and in consideration of its growing needs the small sacrifice from the General revenues which the proposal involves, seems desirable and may be made.

3. The term 'revenue' used in the Municipal Councils' resolutions and in the President's letter is very general. It is not clear whether it means merely assessment on dry, wet and garden lands or whether it includes also any item of revenue other than assessment. I would however include under the word all items of revenue and would put it more clearly as " assessment or rent derived or derivable from such lands."

4 In order No.2327/Rev. 40 dated the 8th June 1876, which made a similar concession to the Bangalore Cantonment and Town Municipal Commissions, the Chief Commissioner, in para 3 laid it down as a condition that a portion of the additional income conceded, should be allotted towards any public institution which would meet the requirements of the Town and Cantonment.

I am afraid it may not be possible or desirable that to the Mysore City Municipal Council with its crippled resources should be hampered with any such restriction.

5. The revenue of the lands within the Municipal limits of Mysore should be collected by the Revenue authorities as heretofore and the amount realised every year minus ten per cent towards the cost of collection credited to the Municipal Funds, as is done in the case of the city Municipality, Bangalore.
